

Ready to join the START Service Intern Program?

Apply Here!

### About Tesla START Service

The Tesla START Service Program is an intensive 16 week EV Service Technician training program designed to provide you with the skills necessary to begin a successful career with Tesla. We are looking for candidates who are resilient, motivated, and committed to building a more sustainable future.

Once accepted into the program, **you will start out as a paid intern** and complete a rigorous hybrid training curriculum. Build upon your traditional automotive repair experience with advanced EV training, and join us in accelerating the world's transition to sustainable energy.

### Requirements

- 18 years of age or older
- Valid driver's license, clean driving record
- High school diploma or GED
- Post-secondary service education or comparable service repair experience
- Willingness to relocate upon program completion

### Class Schedule

Monday - Friday 40hr per week

### Coursework

- Vehicle Production Line
- Glazing & Body Fitment
- Tesla Chassis & Thermal Systems
