Breakout Group 1

Instructions:

- Group members
- Use Tri-C's job to identify unique strengths or characteristics of Tri-C
- Use Tri-C's mission to identify unique strengths or characteristics of Tri-C

1 Reflecting on our vision... 12 min

Consider the context and vision casting message you just heard, what resonated with you the most? What challenges do you see?

Instructions:

- Group members
- Use Tri-C's job to identify unique strengths or characteristics of Tri-C
- Use Tri-C's mission to identify unique strengths or characteristics of Tri-C

2 Reflecting on our mission... 12 min

What unique strengths or characteristics does Tri-C have that differentiate it from other local educational options that give our students a competitive advantage in getting a good paying job or getting their BA?

Our partnerships ranging from critical skills to creative arts offerings...

Our mission and our belief in the potential of our students and our employees in helping students move towards their vision of their future selves.

3 Reflecting on our mission... 12 min

What skills, knowledge or competencies do you think are most critical for students entering today's job market, either immediately after leaving Tri-C or after further education?

Emotional intelligence, Creativity, Professionalism, Agency

Emotional intelligence, Creativity, Professionalism, Agency

Emotional intelligence, Creativity, Professionalism, Agency

4 Reflecting on our values... 12 min

What institutional values might we need to nurture or develop further to meet the challenges ahead?

Truly open-minded institution people regardless of title, age, or any/its

Emotional intelligence, Creativity, Professionalism, Agency

Emotional intelligence, Creativity, Professionalism, Agency

Strategies to Thrive

What strategies should Tri-C consider to do more than meet the challenges ahead, but thrive?

Continue to build partnerships with outside organizations, individuals, employers, etc.

Allow for more flexibility and faster adaptability in programming, curriculum, faculty credentialing, scheduling, etc. Encourage outside of the 'box' in educational models. Don't forget about the Creative Arts!

Add a sticky note with your NAME and how many YEARS you've been connected with Tri-C

Question 1

Reflecting on our Vision: Consider the context and vision casting message you just heard, what resonated with you the most? What challenges do you see?

Summary

Community colleges need to adapt to changing demographics and demonstrate outcomes rather than just asking for trust.

There is concern about moving away from teaching towards more management layers, neglecting student support and faculty. Change should focus on the teaching mission amidst political challenges in higher education. Faculty feel disenfranchised and there is a need to rebuild trust. The use of technology and media literacy across the lifespan, including older adults, is important. It's crucial to remain united and think strategically despite rapid changes. Offering more continuing education for alumni and focusing on etiquette and AI literacy is essential.

Responses

Challenges in Higher Education

A culture of academic dishonesty - why try to learn

Change can be good - but we need to remain focused on our teaching mission throughout

Community colleges need to change and we can no longer just say "trust us". We need to demonstrate outcomes and meet the changing demographics of our region.

Faculty feel disenfranchised - need to rebuild a culture of trust where change isn't happening just for the sense of change

How do bring all of our parts together to advocate for our mission to partner with the community (and the community partner with us)?

Resonated: people wanting to know that their time in higher ed has a purpose

The political climate around higher education in ohio is a huge challenge and one we need to focus closely on

We seem to be moving away from vision of teaching and adding more management layers and not on student support services and faculty

Other

Not become short-sighted by focusing on market demands to the exclusion on our teaching mission, leaving a generation which cannot determine when AI is wrong

use of etiquette when encountering others

Technology and Lifespan

Focus throughout the lifespan. Include older adults.

Future evolve of AI

Include more instruction on media literacy

the use of technology across the lifespan

Unity and Vision Building

Offer more continuing education class for alumni

Something that resonated with me from what Dr. Baston said is that it is important to think about our strategic and vision now (even though we are busy with the "here and now" activities). A challenge that I recognize is that things around us are changing rapidly, and it feels overwhelming to attempt to predict what is needed for an unknown future. Along these lines, I think it will be important to build flexible and adaptable/responsive options and programming.

We must stick together and build bridges towards each other...in a time that government agencies do not appear to be endorsing this view. How do we reconcile?

Question 2

Reflecting on our Mission: What unique strengths or characteristics does Tri-C have that differentiate it from other local educational options that give our students a competitive advantage in getting a good paying job or getting their BA?

Summary

The Ohio Association of Two Year Colleges (OATYC) offers affordable, practical degrees with hands-on experience and strong connections to four-year institutions. They focus on faculty development, small class sizes, and support services like SAS tutoring. The college is involved in national associations, provides resources like food banks and housing, supports immigrants with English Language Programs, and has partnerships for practical experiences and networking. They offer programs in person, online, and hybrid, and have a commitment to excellence in teaching and resources. Notable programs include nursing with above-average NCLEX scores and a BA program in engineering initiated by Tri-C.

Responses

Academic Excellence and Support

Commitment to excellence in teaching and resources to pursue that

Damn good faculty

Focus on faculty development

Focus on supporting students -, support services like SAS tutoring etc.

Our mission and our believe in the intrinsic ability of our students and our employees in helping students move towards their vision of their future selves.

Resource rich institution

Small class sizes

Teaching focused institution

Community-Centric Programs

Community resources-food bank,housing,

Ohio Options Programs

Programs geared to the community

support for immigrants- English Language Programs

Well integrated into our community

Diverse College Offerings

advantages: affordability,practical degrees, hands-on experience

College is involved in national association of community colleges.

Cost per credit and relationships with other college

different course lengths

good connections to 4-year institutions

high school feed-in

Ohio Association of two year colleges OATYC

Tri-C initiated BA program engineering

community connections

Modality options: In person, online, hybrid

Nursing NCLEX scores above national average

reputation

sense of longevity

Stomp - sense of community

Practical Learning Partnerships

A strength that we offer is access to practical, "real life" experiences and networking (early on in our programs) through outside partnerships, mentors, and employers in the area we live. Building and expanding on learning models that include more opportunities to interact with outside organizations and employers/mentors (e.g., apprenticeships, internships, etc.).

developing new programs/ degrees/ certificates to meet community needs

Internships

Our partnerships ranging from clinical sites to creative arts offerings. .

Question 3

Reflecting on our Mission: What skills, knowledge or competencies do you think are most critical for students entering today's job market, either immediately after leaving Tri-C or after further education?

Summary

Students should acquire practical experience, job market knowledge, and hands-on skills, including tools like QuickBooks and Excel for accounting.

They should demonstrate mastery through proctored exams, internships, and use of career centers. Essential skills include time management, work/life balance, teamwork, strong work ethic, project management, emotional intelligence, creativity, professionalism, and ethical AI use.

Developing resilience, a growth mindset, accountability, critical thinking, problem-solving, curiosity, communication, cultural competency, networking, adaptability, data literacy, and media literacy is crucial. Encouragement from faculty and leaders, high standards, and belief in their capabilities will help students succeed.

Responses

Building Confidence and Accountability

Accountability

Believing in themselves

confidence

Overcoming obstacles

Building Resilience and Growth Mindset

ability to further their education

Growth mindset

Resilience, Persistence through the friction of the being uncomfortable (the learning process involves moving through discomfort to achieve ultimate success, pride, and confidence); encouraging merit and pride in your effort and work; doing this through relationship, mentorship, and modeling by faculty and leaders

See that they are capable of more

Critical Thinking and Problem Solving

critical thinking skills

Critical thinking/ problem solving skills

general study skills- where to find reliable information when they need it

problem-solving skills

Emotional Intelligence and Professionalism

Emotional Intelligence, Creativity, Professionalism, Agency

Ethical use of AI

Increase emotional intelligence by learning skills to work with others.

Learning how to network with others in their field.

Professionalism

Enhancing Communication and Networking

communication skills

Listening Session Summary

Faculty

Monday, February 17, 2025

Cultural Competency/DEI Awareness

Networking Skills

Fostering Curiosity and Creativity

Become excited about learning

Encourage curiosity as the basis for learning efforts, creativity, and discovery.

Learning how to facilitate creativity

Other

Adaptability/Resilience

AI knowledge

Be held to high standards so they are prepared to succeed at a 4-year institution

Communication

Data Literacy

media literacy skills

Preparing Students for Job Market

Demonstrate that they have mastered the material vs. AI ie. proctored exams

hands-on experiences

Internships to gain valuable experience and explore the field

Knowledge of job market

Learn to use common tools for the field i.e. quickbooks/excel for accounting

practical experience

Students need to be able to bring their skills to meet their employers needs while also advocating for themselves professionally.

Utilize the career center

Professional Development Skills

5 year plan

Project/Time management skills

Strong work ethic

Teamwork/Collaboration

time management

work/life balance

Question 4

Reflecting on our Values: What institutional values might we need to nurture or develop further to meet the challenges ahead?

Summary

The institution should value all people regardless of their background and focus on retention, professionalism, adaptability, resilience, cultural competency, teamwork, technology, grit, equity, inclusion, civility, authenticity, and compassion.

Prioritize faculty development through micro-credentialing, upskilling, and reskilling opportunities, and integrate AI and emerging technologies in coursework.

Increase full-time tenure track faculty, strengthen work-based learning experiences, and align academic programs with local industries.

Invest in teaching and student support rather than extra management, maintain high standards of excellence, welcome all economic backgrounds, and emphasize academic integrity, literacy, public speaking, leadership, and management.

Responses

Academic Program Enhancement

Develop faculty micro-credentialing opportunities

Expand access to upskilling and reskilling opportunities, including micro-credentials and certificates.

Integrate AI and emerging technologies into coursework so students stay competitive.

Strengthen ties between academic programs and local industries for curriculum alignment and job placement.

Strengthen work-based learning experiences, including internships, apprenticeships, and co-ops.

Increase budget for faculty development collegewide

Increase full time tenure track faculty numbers

Invest more in full-time faculty who can continue to improve their practice rather than their side-job

Invest more in teaching and student support, less in extra management tiers

Excellence and Integrity at Tri-C

Academic Integrity

Bring dignity and honor back to graduation

Consistency in quality and maintenance of high expectations for excellence and competency on all levels at Tri-C (for staff, faculty, and students no matter what program/course or the student's background). I believe this will support the Tri-C values as stated on the including "building trust, respect and confidence among our colleagues, students and the community"

Teaching and student support come first

Other

Develop leadership and management of a team

Develop Public speaking

increasing literacy

Welcome all people regardless of economic resources, including those who have degrees, businesses, and/or middle- and upper-income.

Values and Skills in the Institution

Listening Session Summary

Faculty

Monday, February 17, 2025

Teamwork means being able to get along with the people you work with.

adaptability

Authenticity

Civility

Compassion

Cultural competency like learning a new language

Equity and Inclusion

GRIT

Professionalism

Resilience

Retention

Truly show that the institution values ALL people regardless of title, age, or anything else.

up to date technology

Strategies to Thrive

What strategies should Tri-C consider to do more than meet the challenges ahead, but thrive?

Summary

Recognize the value of academic counselors and build a culture of academic integrity.

Support higher education despite political challenges and maintain the essential role of community colleges.

Increase financial support for faculty development, restore the honor of graduation, and prioritize excellence in teaching.

Allow flexibility in programming and curriculum, encourage innovative educational models, and invest in up-to-date technology.

Expand student internships and faculty externships, invest more in full-time faculty and support services, and lean into AI training.

Build partnerships with external organizations, expand regional reach, and value everyone.

Increase full-time tenure track faculty and ensure the school model is holistic and adaptable.

Responses

Empowering Students and Faculty

Lean into the training needed for faculty, staff, and students with AI

Invest more in full-time faculty and support services for students, less in extra management levels

Increase student internships and faculty externship opportunities

Enhancing Academic Environment

Return to a commitment to excellence in teaching as our primary mission

Restore the dignity and honor of graduation

Get organized and involved in keeping the community college essential to the public.

Be a leader in supporting higher education in spite of the political agenda to tear down education

Build a culture of academic integrity

Recognize the value of our academic counselors - we are very lucky to have them in our faculty ranks

Increase financial support to faculty development college wide

Innovative Educational Approaches

up to date technology

Allow for more flexibility and faster adaptability in programming, curriculum, faculty credentialing, scheduling, etc. Encourage outside of the "norm" in educational models. Don't forget about the Creative Arts! :)

increase technology

Other

Continue to build partnerships with outside organizations, individuals, employers, etc.

Tri-C should expand our regional reach. And TRULY value everyone.

Think more holistically about how the school model fits and where we need to adjust to make everything flow appropriately

Commit to increasing full-time tenure track faculty - our numbers have dwindled steadily
