Select Subject Management from your Explorance Blue homepage and select your chosen course.

View Reports from the Course Management page
To view reports, select the bar graph icon.
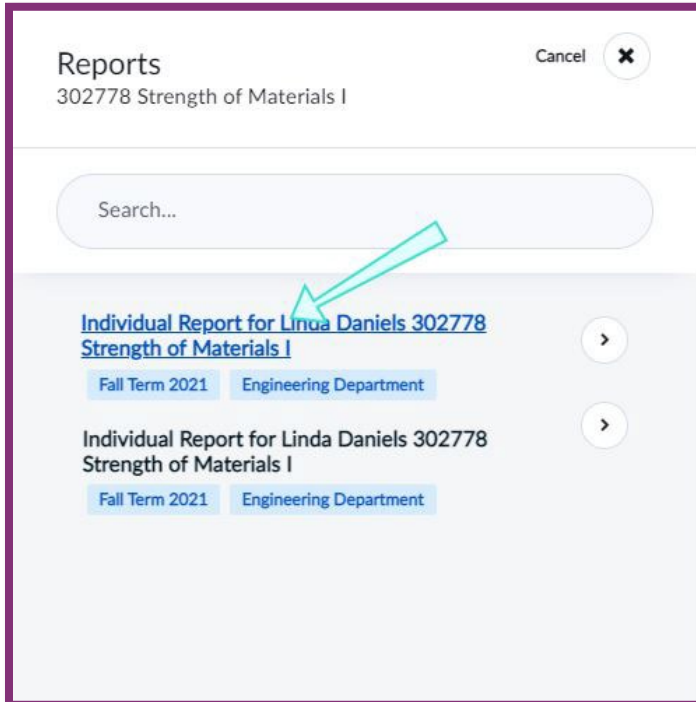

Select the Report you want to view

Type of Reports
Exoplorance Blue can several report types

Individual – Tailored for evaluating an individual question, each stakeholder within an organization can receive their own custom report containing only response data relative to them.

Rollover- Aggregates all feedback data together providing a summary of the available responses.

Group by- Similar to a rollover except that data will be aggregated according to various predefined groups within an organization.

Export: An analysis of data contained in a CSV file.
