

Explorance Blue – How to Guide

Using QR Codes for Student Feedback Forms

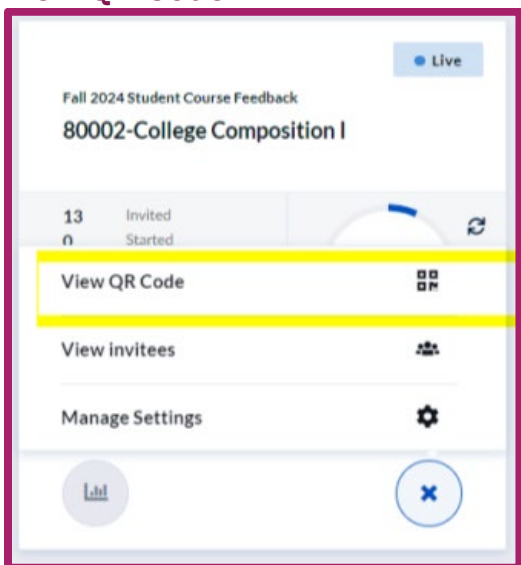

Faculty can share a QR code with students that allows them to access the course feedback form. This may be used in face-to-face classes to allow students time in class to complete the form.

Access the Subject Management page to view course widgets

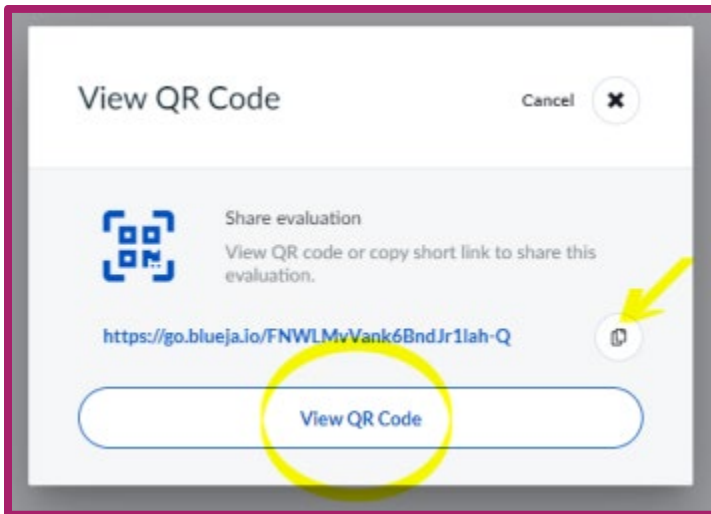

Select the three dots at the bottom of the widget to open the course options

View QR Code

Select "View QR Code" to open options for sharing the QR code.

Faculty have the option to either view the QR code so the students can scan and complete their course feedback form or copy the link to share with student to complete the course feedback form.
