Explorance Blue FAQs for Students

What is Explorance Blue?
Explorance Blue is a new survey tool that offers students a seamless experience to submit valuable course feedback. Students are **highly encouraged** to complete the course feedback form. Sharing your experience makes a direct impact and helps us enhance the quality of education at Tri-C.

When will students complete the course feedback form?
You will receive an automated email from evals@evals.tri-c.edu **once the course is two-thirds complete**. Students are encouraged to complete the course feedback form promptly. Students who are taking courses using Brightspace will receive an additional notification.

How long will students have to complete the course feedback form?
You will have UNTIL THE COURSE END DATE to complete the course feedback form. Students will receive up to two automated reminders to complete the course feedback form.

Will students be able to change their responses once they submit the completed course feedback form?
No. You will be asked to review responses carefully before submitting the course feedback form.

Are student responses anonymous?
Yes. Your feedback is confidential and anonymous. Faculty will be able to see the total number of responses but will not be able to identify individual student responses.

When will faculty have access to review student responses?
Faculty will have access to view student responses after grades have been submitted, approximately five days after the course end date.

Who do I contact if I have additional questions?
If you have questions or need additional help, please send an email to **helpcoursefeedback@tri-c.edu**.
