

# Update Brightspace Mediasite Links Created Prior to 8/11/24

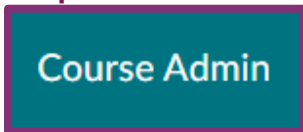

Mediasite has been updated from to what is called LTI 1.1 to 1.3. The update fixes issues with Quizzes so the scores will now go to the Grade Book. If you have current Mediasite links in your Brightspace course that were working prior to August 11, 2024, you will need to migrate those to the new Mediasite LTI using the Run Migration Tool inside each of your Brightspace sandboxes and courses. If you click on a Mediasite link that was previously working, you will get an authentication error message.

## How to Run the Migration Tool to Update Links [\(Watch Video Tutorial\)](#)

**Step 1: Navigate to your course**

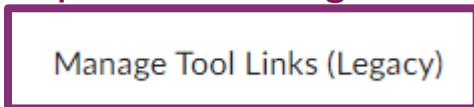

**Step 2: Select Course Admin on the Navigation Bar**

**Step 3: Select External Learning Tools**

**Step 4: Select Manage Tools Links (Legacy)**

**Step 5: Select Migrate**

**Step 6: To monitor the process, select Migration Log and verify it is Complete**

| Job Id | Status   | Links Migrated | Link Errors | No Domain Match | Date Completed ▼     |
